Question 1f. When is it appropriate to designate my agency's Responsible Charge (RC)?

Answer 1f.

If your agency has an active Federal-aid project(s), and wishes to advance that project into the next Federal funding phase, NDOR Local Projects Division recommends that your agency designate a RC now, but no later than September 1, 2009. Refer to Section 15.3.2 of the LPA Guidelines Manual <http://www.transportation.nebraska.gov/gov-aff/lpa/lpa-guidelines.pdf>. If your agency does NOT have a Federal-aid transportation project at this time, or has an inactive project, you do NOT need to designate a RC at this time.

Your agency may designate RC(s) over the internet at:

<http://www.transportation.nebraska.gov/gov-aff/lpa-resp-person-form.html>

Fill out the form that comes up after you click on the link. NDOR is building a database of RCs.
