

## **FFPP – FAQ**

### **1b. What is the guarantee that my LPA will get this money every year?**

There would be as much of a guarantee as there is now, and has been, that local agencies will receive federal funds.

The federal government does not require NDOR to share federal funds with local agencies. However, historically NDOR has shared a portion of its federal funds with local agencies and is committed to continue doing so.

NDOR likewise will commit (with executed agreements) to a federal fund purchase program in full partnership with local agencies.

Although considered a remote possibility, changes in future Federal legislation could conceivably cause the program to change or be eliminated.

Availability of state cash is not expected to be a limitation of the federal fund purchase program because of the proposed timing of payments.
