Nebraska's State Transportation Improvement Program

Fiscal Years 2010 - 2014

Monty W. Fredrickson - Director

Nebraska's transportation planning process, as well as those of the three metropolitan planning areas, is being carried out according "Guidelines for Development of the Nebraska Statewide Transportation Improvement Program (STIP), Draft Version, June 2009":

Nebraska's 2010 through 2014 STIP includes the following:

1. A listing of state highway and local projects by fiscal year, excluding projects in the Lincoln, South Sioux City and Omaha MPO's. These projects are shown in the listing as a line item in each appropriate category.
2. A listing of advance construction projects,
3. A listing of Section 5310 and 5311 transit projects,
4. Listings of BIA and Federal Lands projects if available at time of publication. If unavailable, these will be added by revision as they are received.
5. A summary by fund category all federal funds expected to be received and obligated by NDOR and the three MPO's during the STIP period.
6. A separate summary of American Recovery and Reinvestment Act (ARRA) funds to be obligated in Fiscal Year 2010.
