

SECTION 1016 -- PREFORMED POLYCHLOROPRENE ELASTOMERIC JOINT SEALS

1016.01 -- Description

The seal consists of a multiple web design for sealing concrete pavements. The seal is installed with a lubricant adhesive and is designed to seal the joint and reject incompressibles.

1016.02 -- Material Characteristics

Preformed polychloroprene elastomeric joint seals shall conform to the requirements of AASHTO M 220.

1016.03 -- Acceptance Requirements

Acceptance shall be based on sampling and certification requirements in accordance with the NDR *Materials Sampling Guide*.

SECTION 1017 -- CAULKING COMPOUND

1017.01 -- Description

Caulking compound for use in masonry and other types of structures shall be a one-component oil and/or resin base compound or an acrylic latex compound.

1017.02 -- Material Characteristics

1. One-component oil and/or resin base compounds shall conform to the requirements of ASTM C 570.
2. Acrylic latex compounds shall conform to the requirements of ASTM C 834.

1017.03 -- Acceptance Requirements

Caulking compounds approved for use are shown on the NDR Approved Products List.
